*Dear Sirs,*

*The School Kids Bonus has a significant impact on my family.*

*It assists me to purchase uniforms, books and stationery.*

*These items, despite public education supposedly being 'free', are expensive.*

*I implore the government to consider the impact of removing this bonus on low income families. Particularly now the Sole Parent tax rebate has been revoked for Newstart and Austudy recipients who have been moved from Parenting Payment (myself included). I used to rely on the tax rebate to assist with school items, the School Kids Bonus REALLY helped.*

*I know that this bonus has somehow been linked to the Carbon Pricing, but I wasn't particularly impacted by the Carbon Pricing and support a price on pollution.*

*Increase the amount that big companies pay for their emissions and polluting of this countries natural resources instead of impacting the poor.*

*Please keep the School Kids Bonus.*

*Kind regards,*

*Clare Christie*
