

Dear Sir/Madam,

As an Australian born concerned citizen, It is VITAL and ESSENTIAL that Australia Post Public bank is created immediately ! It is an absolute disgrace to witness the amount of banking corruption /fraudulent activity and total disregard for people in our regional communities ..The Christine Holgate debacle was an unjustified conflict with the greedy banks .

The current appointment of the ex Macquarie Bank -CEO, Nicholas Moore position overseeing Australia's two primary financial regulators APRA and ASIC, despite remaining a person of interest in investigations by German prosecutors is ridiculous! It's a political joke that come election time will get sorted ! I hereby lodge my submission for a Post Bank .

Regards

Tom Dimitroff
