

**Submission in favour of postal bank**

Dear Sir / Madam

I cannot express my views more succinctly and effectively than:

**“ We call upon the Australian government to:**

Immediately establish a **national postal bank**—a new “people's bank” like the original Commonwealth Bank—to operate through Australia Post's thousands of post offices; and **a national development bank** to invest in infrastructure and productive industries.”

This is absolutely essential to implement in order for Australia to move forward in a fair and equitable way.
