

Postal Banking

Good morning

I would like to vote for a postal banking system in Australia.

The big banks have closed our branches and we now have to go to the Post Office for all transactions. The Post Office do all the work and the banks pay them very little.

Our Government say "we have to pay for what we get". The banks do not have to do so. Through a postal bank we are getting what we want.

The only way to go. Postal Banking yes, yes, yes.

Regards
