

## **Australia Post Bank**

Please give us a Regional banking Postal bank.

I would like to register my concerns about banking in Australia  
And suggest that you approve the Postal bank, which just makes sense.  
The infrastructure is already there, they are already doing banking  
And this would give continued financial services to regional area  
As the Big 4 keep closing down there services.

Australia post or a Postal banking system would save Australia  
From financial uncertainty.

Jenny Poett
