

To the redinal banking task force.

Greatings my name is David Taylor, I am a pensioner in Brighton S.A.

It is my oppinion that way too many bank branches and ATM machines are being removed from all over the country.

Not ALL services can be done online and there are many disabled and elderly that are not tec savy anoth to do banking online and certainly not in a safe way ( hackers etc ).

I hope you will do all you can to prevent any more removal of bank branches and ATMs.

Also I think this country would benifet greatly if there was a AUSPOST bank, apart from this being a good idea for nany other reasons in this instance it would help repace the services that vanished when the branches where removed.

Thank you for your time,

Yours sinserly David Taylor
